

How to Access DynaMed on iPhone and iPod touch

Last Updated: August 2009

DynaMed is available as a native application from your iPhone and iPod touch. In order to install *DynaMed* onto your iPhone or iPod touch, you will first need to obtain a *DynaMed* serial number and use it to register with Skyscape.

To register with Skyscape:

1. Contact *DynaMed* support at dynamedsupport@ebSCOhost.com to request a *DynaMed* serial number.
2. Once you are contacted with a *DynaMed* serial number, click [here](#) to create a new account with Skyscape.
3. After creating your account, you will be logged in.
4. iPhone/iPod touch users need to install the free Skyscape iPhone App from the Apple iTunes App Store. You only need to download and install the iPhone App once.
5. After you have installed it, launch the Skyscape App on your device.
6. A login screen will ask you to log in to Download Free Resources. This is not required to install *DynaMed*, so you may skip this step by pressing the **X** in the top right of the screen.
7. Select **Install Resource**.
8. When prompted, enter you Skyscape login credentials and your serial number.
9. Select **Register And Download**.
10. Assure *DynaMed* is checked and select **Register And Download** again.
11. If Wi-Fi is not enabled, Skyscape will ask for confirmation that you want to download over your data connection, select **OK**. *DynaMed* will download and is about 60 MB in size.

To access DynaMed from your iPhone or iPod touch:

1. Launch the Skyscape App.
2. Select *DynaMed* from the **My Skyscape** home screen.
